

AUSTRALIA'S ULTIMATE DESERT RACE
QUEENS BIRTHDAY WEEKEND 11 - 14 JUNE 2021

2021 TATTS FINKE DESERT RACE

A GUIDE TO ROLES OF VOLUNTEERS

The Finke Desert Race has been run annually in Central Australia for more than 40 years. Throughout this time, this now internationally renowned event has been a community run event organized and operated by volunteers with support from only a handful part-time paid staff (specifically in the administration and information technology departments). 2019 saw 300+ registered volunteers. Many of these are Alice Springs residents, however, many come from other parts of Australia ... sometimes on an annual basis. Our volunteers bring a huge range of knowledge, skills and experience to the event... and we couldn't do it without them all!

Anyone can volunteer and there are no prerequisites required for many of the tasks. While some jobs require training and accreditation (e.g. becoming a scrutineer) there are many that don't (e.g. car park attendants, catering etc.). Team Leaders will make sure that volunteers are competent and comfortable to fill their roles and where necessary, training will be provided and briefings will be arranged.

Most of the following roles relate to tasks over Race Weekend (e.g. marshals) however, some cover the week prior to the race (e.g. registration and scrutineering), with others like track maintenance and marking extend over weeks or months prior to the race.

The following list is a snapshot to give potential volunteers a feel for the volunteer help that is needed. In practice, there is usually a lot of flexibility – e.g. a volunteer flag marshal does not have to be there all three race days - providing the Volunteer Co-ordinator or Team Leader knows who is expected when. Some volunteers may have two or more roles – e.g. one in registration week and another on race days.

The Finke Desert Race Club welcomes everyone – motorsport enthusiasts or not – to come and immerse themselves in the “behind the scenes” aspects of our event and join the “Finke Family”.

When days are referenced below, please use the following dates for 2021 as follows:
